THE CHOLERA.

Terrible Mortality on the Voyage of the Hamburg—American Steamship "Scandia."

Prospects Brighter in the City of Hamburg—Deaths in Budda-Pesth.

Grave Fears in the United States as Well as Great Britain.

HAMBURG, Sept. 9.—The weather has been bright, and there has been a cool breeze to-day. Although the thermometer has stood at 69 degrees Fahrenheit most of the day, the rise in the temperature has been hardly noticeable, as the air has been dry and invigorating. The decrease in the number of fresh cases and deaths continues. To-day the fresh cases have numbered 789, or 108 fewer than yesterday. The deaths have numbered 246, 52 fewer than yesterday. There have been 481 burials, or 17 fewer than yesterday. In the cholera hospitals 2,941 patients are under treatment. Since yesterday afternoon there has been a rapid decline of the epidemic in the harbor district, and to-night but 30 or 40 patients are in the cholera barracks. The general betterment of the city's prospects is already apparent in the behavior of the people. A little life has been noticeable on the streets, although a stranger would still think himself in a city of the dead. On the promenade, along the Buenen Alster, which had been deserted since September 2, a few persons might have been seen at any time, this afternoon, taking an airing. The cafes, which had hardly ten patrons a day, doubled their earnings. The newspapers seize the opportunity to tell the truth and reiterate their assurances that the plague probably has done its worst. In the poorer districts, however, no change is apparent. The lack of employment must continue there for several weeks yet, and the impoverished working people are on the verge of starvation. The relief committees have raised 600,000 marks to alleviate the sufferings of the poor. Among the most generous subscribers was Prince Bismarck, who has given 10,000 marks. Reports from Luebeck and Bremen state that since Wednesday those cities have been free from the plague.

QUARANTINE, S.I., Sept. 9.—Fear and unrest were plainly written on the face of Health Officer Jenkins and his assistants, this morning, caused by anticipation of the arrival of the Wieland, from Hamburg, which dropped anchor in the lower bay at an early hour; but this feeling of suspense was to some extent allayed when the health officials boarded the ship, and, after a most careful investigation of everyone of the 161 cabin passengers aboard, reported them in excellent health. This statement was doubted by many persons, because of the fact that the Wieland was one of the latest departures from the infected port of Hamburg, but subsequent official reports confirmed the news that the ship was free from the pest. The official record of the day was three deaths and four new cases. New cases on the Wyoming—two Russian children—were removed to Swinburne Island. Dr. Jenkins asserts that these two children were smothered, and ridiculed the statement that they were victims of the scourge. The mother of the children was also taken ill with unmistakeable signs of the pest, as were also the two Russian children. Desiring to run no risk, Dr. Jenkins ordered the Wyoming, which has been lying in the upper quarantine for 34 hours, to the lower bay. This action, it is believed, shows plainly that the ship is infected.

1:50 a.m.—This morning Dr. Jenkins received the following from Swinburn Island, over the cable, signed by Dr. Bryon: "Have visited the Scandia this evening and find the following—Total number of passengers, 1,086—cabin, 28; steerage, 981; crew, 77. On the voyage there were 32 deaths, of which there were 39 in the steerage, one in the cabin, and two among the crew. I am now starting in our tug, the Crystal Water, to transfer the cases stricken with the plague to the hospital here, on Swinburne Island." The Scandia sailed from Hamburg on August 25, and was due here yesterday. It has been variously reported that she had about 900 steerage passengers, and it has been expected that she would be the final *coup* for the plague-ridden Hamburg-American Company, and the report to-night shows the first fears are more than realized.

BUDA PESTH, Sept. 9.—Two persons died of Asiatic cholera in this city to-day.

LONDON, Sept. 9.—The British steamship Ironopolis, hailing from Middlesborough, has been quarantined at the Crimean seaport, Kertch. Eleven of her crew have been stricken with cholera, and two have died.

ROTTERDAM, Sept. 9.—Two men fell ill of Asiatic cholera in Krollingev, this morning, and one of them died to-night. Both had helped to unload ships from Hamburg and Russian ports.

EMPLOYERS AND EMPLOYED.

Conference Between the Reading Management and its Employes.

PHILADELPHIA, Sept. 9.—The committee representing the employes of the Reading Railroad system, this afternoon, had a conference with President McLeod, to learn the policy of the Company toward its employes. The committee stated that they had no grievances, but wanted the rules in regard to the employment of new men changed. The particularly objectionable clauses are the refusal of the Company to employ new men except they join the Reading Relief Association to which the company contributes $100,000 per year, and the refusal of the Company to employ new men unless they are not members of any labor organization, and agree not to become members. President McLeod outlined the Company's ultimatum and the committee withdrew without announcing what course, if any, it would take. The conference was harmonious and ended at 2.30 o'clock, having lasted half an hour.

TO STOP IMMIGRANTS.

The Canadian Railways Will Not Carry Immigrants for Points in the United States.

QUEBEC, Sept. 9.—(Special.)—Railway agents have received instructions not to issue or exchange tickets for points in the United States to immigrants, on account of the 20 days quarantine at Montreal. The assistant-general passenger agent of the C.P.R. stated, to-day, that his company had decided to transport no more immigrants, this season, to any American point. They will give passage only to immigrants who seek settlement in Canada, and who have passed examination at Grosse Isle quarantine.

British Blue Jackets Occupy Historic Ground—Failure of a Hardware House.

(Special to the COLONIST).

QUEBEC, Sept. 9.—The Royal Commission on the Liquor Traffic closed its session here yesterday, and adjourned to meet in Montreal to-day.

The ss. Wandrahm, about which such fears are entertained, only passed Heath Point, Anticosti, inwards with 46 passengers on board late yesterday afternoon, and is not due at Grosse Isle until to-night or to-morrow morning. Nothing has yet been signalled from her as to cholera on board.

A demand of assignment has been made upon Beaudett, Garneau & Lefaivre, hardware merchants. The liabilities are estimated at $60,000.

Two hundred blue-jackets of H.M.S. Blake were yesterday evening landed and marched out to the Plains of Abraham, where they went through manœuvres and afterwards marched back to their ship. They were headed by their band. They are a stalwart body of men.

ABOVE AUTHORITY.

The Hamburg-American Packet Company Determined to Force the St. Lawrence.

MONTREAL, Sept. 9.—(Special.)—The Hamburg-American Packet Company will test the authority of the Provincial Government to prohibit the landing in Quebec of vessels from infected ports. The boats of the company are coming to this port despite the prohibition, and, if any attempt is made to stop them, an appeal will be taken to the Dominion Government.

TORONTO TOPICS.

State Aided Immigration Unanimously Condemned by the Trades and Labor Congress.

The City Authorities Forcibly Take Over a Neglected Contract—A Lucky Bookkeeper.

(Special to the COLONIST.)

TORONTO, Sept. 9.—The contractor who took the job for the erection of the new court and civic buildings has not been making satisfactory progress with the work and at midnight the city took forcible possession of the site, and will, unless stopped by the courts, immediately re-let the contract.

The annual meeting of the Dominion Trades and Labor congress was accorded a hearty welcome on behalf of the city and mayor, and members of the city council. The congress passed unanimously a resolution condemning State aided immigration of any kind. This is the first history of there being perfect unanimity in the congress on this question.

CAPITAL NOTES.

Premier Abbott to Visit England—His Colleagues Hope With Beneficial Results.

Criminal Charges Against the Connolly's to Be Proceeded With—Revenue Regulations.

Complications Likely to Arise in Connection With European Immigration Matters.

(From Our Own Correspondent.)

OTTAWA, Sept. 9.—Messrs. Carling and Lowe went to Montreal to-night, to confer with Premier de Boucherville on quarantine matters.

The steamer Wandrahm, from Hamburg, arrived at Grosse Isle early this morning. She reported from the Gulf stations all well on board.

The railway companies having declined to carry immigrants to the United States, serious complications are likely to arise in Quebec, a number of people being *en route* to the States via that city. Unless the steamship companies send them back to England, the immigrants will become a charge on the Dominion.

Premier Abbott was engaged working in his office to-day consulting his ministers, but he declined to see general visitors. He left his country seat at St. Anne's this afternoon. Speaking to the COLONIST, he said he felt well physically, but mental labor was fatiguing. He had been advised by his colleagues to visit England. Certain important matters required a direct personal conference with the Imperial authorities, and it was thought a sea voyage and the rest would do him good. Hon. Mr. Foster will accompany him. The Premier would not state definitely the object of his visit, but it is thought the Behring Sea matter and recent outrages by the Russians are among them. Public opinion on the outrages has been greatly aroused. Sir John Thompson, speaking to me, said the members of the Government hoped that the result of Sir John Abbott's journey would be to extend the period of his public usefulness.

The Minister of Inland Revenue has been authorized to determine hereafter the amount of security given by maltsters.

A protest has been filed against Mr. Bruneau, member for Richelieu.

The preliminary investigation into the charges against the Connollys will be held to-morrow.

MONTREAL MATTERS.

A Priest Expelled From the Sulpician Order—Medical Men Approve the Quarantine.

Pool Sellers to Be Prosecuted—For the Relief of the Protestant Insane.

(Special to the COLONIST.)

MONTREAL, Sept. 9.—The trustees of the estate of Hon Honore Mercier are calling for tenders for the purchase of the immovable properties belonging to the said estate.

A sharp advance having taken place in the United States on the finer grade of paper, owing to a scarcity of rags, wholesalers are going to advance their prices. In proportion the advance will equal at least ten per cent.

The Medico-Chirurgical Society at its meeting last evening, adopted the following resolution: "That this society endorses and approves of the action of the central board of health in quarantining the province."

La Presse, Mr. Chaplean's organ, publishes an article stating that Sir John Thompson is the coming premier of Canada, as there is no doubt that Mr. Abbott has made up his mind to give up the Premiership.

Detectives Grose and Carpenter have received instructions from Messrs. Atwater and Mackie, on behalf of the Government, to collect evidence at once to proceed against George Carslake and R. H. Brand, of the Turf Commission Company for pool selling.

A dispatch from Paris states that Rev. Abbe Guiot, late of St. James' parish, Montreal, and whose name was connected with the terrible scandal of a week ago, has been expelled from the Seminary of St. Sulpice.

The board of governors of the Protestant Hospital for the insane met yesterday, and authorised the president and secretary to sign the deed of agreement with the Provincial Government for the issuing of the loan of $150,000. The president and secretary are to meet the Hon. H. H. Pelletier, Provincial Secretary to-morrow morning at the Government office to complete arrangements.

A cable from Edinburgh announces the death of David B. Sidey, who resided in Montreal for many years, who was prominent for many years in the shipping trade, and was especially popular among his brother Scotchmen.

CABLE NEWS.

A Royal Visit.

GENOA, Sept. 9.—King Humbert and Queen Marguerite visited the Columbus Exhibition, to-day. They inspected the American section with evident interest, and also the sections occupied by workmen engaged in their various trades. The King and Queen next visited the section occupied by the Catholic missionaries, where they were received by the Archbishop of Reggio. Their Majesties expressed themselves deeply interested in all they saw, and were enthusiastically cheered by the immense throng present.

The ball of the municipality, this evening, was a splendid affair. The King, Queen, the diplomatic corps, the officers of all the warships in the harbor, and all the high city officials, were present. It is generally agreed that the Admiral of the French fleet was received very cordially by the King this afternoon. President Carnot's letter, delivered during the interview to the King, expressed feelings of warm friendship and well-wishing for Italy. This evening the King spoke for several minutes with the Admiral, and then chatted with each of the foreign Ministers.

Rewards of Merit.

LONDON, Sept. 9.—The Board of Trade has presented a gold watch to D. H. Rivers, master of the American ship Roupes, for rescuing the shipwrecked crew of the bark Glauperis, which was abandoned off Cape Horn. Second Mate Graham received a gold medal; Third Mate Lawrence, a silver medal; and Seamen Petersen, Best, Dann and Vornan, $15 each.

Convicts Mutiny.

VIENNA, Sept. 9.—About 30 convicts in Stein, Austria, attempted to escape yesterday. They overpowered the guards, clubbed the warden to death and wounded his three deputies. The military were called out, and after wounding eight convicts severely, quelled the outbreak.

Archduke Albert Ill.

VIENNA, Sept. 9.—Archduke Albert of Austria is seriously ill.

HALIFAX, Sept. 8.—An engine exploded near Stellarton station this morning. The driver, David Duncan and fireman E. Culton, miraculously escaped. A number of houses were damaged by the flying pieces.

South Perth Election.

STRATFORD, Sept. 9.—The petition to unseat Mr. Pridham for South Perth, and the cross petition against Mr. Trow, were dismissed to-day for want of evidence.

The Quarantine Commission.

HALIFAX, N.S., Sept. 9.—The members of the International Commission arrived here from St. John this morning, and this afternoon they are inspecting the quarantine facilities at Lawlor's Island.

Fishermen Drowned.

ST. JOHN, N.B., Sept. 9.—A sad drowning accident occurred near Cardigan, P.E.I., yesterday. A small fishing boat, owned by Capt. Sigworth, of Cardigan, in which were himself, son of 16 years, and two other men, was returning home, when the boy was knocked overboard. In order to save him his father jumped in and swam to his assistance, when both were overcome by the heavy sea rolling, and sank from sight. The bodies have not been recovered.

NEWS OF THE PROVINCE.

Daily Service Between Westminster and Victoria—Steamer Bushmills Released.

Mining in the Kootenay Country—A Crook Forced to Move—Arrival of the Boscowitz.

(Special to the COLONIST.)

VANCOUVER.

VANCOUVER, Sept. 9.—The Empress of China arrived at this port at 5:30 this afternoon.

The Michigan Lumber Company will build their sash and door factory at once.

Rev. Father Van Nevel, D.D.G.P., visited Vancouver Council, Y.M.I., last evening.

The exposure of a World reporter has driven the star crook, Hammond, from a settlement six miles from Port Haney. The States are too hot for him, and he is trying to work Canada.

The steamer Barbara Boscowitz arrived to-day from the North with 5,000 cases of salmon.

The steamer Capilano arrived, this morning, with 350 tons of sandstone, the first from the new Haddington Island quarries. It will be used for curbstones on the streets when paved with bituminous rock. Some months ago, the city notified the street railway company that they would be required to lay the track on certain streets with a flat rail The company has not yet purchased the flat rails, and as Contractor McGillivray will have bituminous rock here in a week, and be ready to start operations, the rails, which would have to be brought round the Horn, could not possibly be here before April next.

WESTMINSTER.

NEW WESTMINSTER, Sept. 9.—A Cariboo half-breed, sent to jail six months ago, for supplying liquor to Indians and "being unlawfully drunk and yelling on the highway," completed his sentence to-day on the first charge, and was released on habeas corpus by Justice McCreight, who could not find a penalty for the latter charge.

Captain Irving promises a daily steamer between Victoria and here during celebration week, at a single fare for the round trip.

A boy named George McKee found a railway torpedo on the track yesterday at Port Moody and tried to break it with a stone. The torpedo exploded mangling his left hand frightfully and cutting his face in several places. George was brought to town for repairs.

The injunction restraining Messrs. Rowling from cutting the Brunette dam was to-day dissolved by Justice Creight. Costs were reserved.

The steamer Princess Louise, on her way up the river from Victoria, this morning ran ashore during a fog, on a sand bar opposite Ladner's Landing. She will probably get afloat this evening, when the tide will be high.

Hunters have never been so numerous or game so scarce as this season. Only a few score braces of grouse have been marketed so far. The supply, however, will be larger when the Indians get to work.

The Marshal of the Admiralty Court, Victoria, telegraphed to-day to Sheriff Armstrong to release the Bushmills, and the vessel was set free about noon. She is expected to leave for Nanaimo to-morrow morning.

NELSON.

(From the Miner.)

Messrs. Perry, Grey & Davys are sending out a surveying party to Goat river, to survey timber limits, to-night, and the week following will have a party on Duncan river.

The drying kiln of the Nelson Saw Mill Company is now in working order, and on Monday last the first kiln-full of lumber was put through, when some of Nelson's foremost citizens indulged in the luxury of a Turkish bath.

Mr. Clute has taken the measurements necessary to enable the steamer Ainsworth to be registered. The owner of this boat is by no means sitting down, waiting for developments, but is using every means in his power to insure the boat running before long.

Captain Fitzstubbs and A. E. Hodgins returned from Nakusp on Thursday. After a careful examination of the trail it has been decided to commence work right away on the wagon road. This will be good news for those owning mines in Slocan, who intend to make shipments of ore, as this road will afford an easy and cheap route to Canadian smelters.

The first general meeting of the shareholders of the Slocan Trading & Navigation Company was held at Nelson, on Tuesday. The company was incorporated last winter, and of its $25,000 authorized capital $6,000 has been paid in and expended in the building of a steamboat to ply on Slocan lake. The hull of a 60-foot propellor was completed early in the summer, but, through the failure of the John Doty Engine Company, of Toronto, the machinery, which was contracted to be delivered in April, was not all shipped from Toronto until late in August. This delay has been a most expensive one on the company, the loss on the business that could have been done amounting to fully half the cost of the boat. The shareholders—all of whom do business at Nelson and New Denver—decided to put the machinery in the boat at once, and it will be running within a month if no more mishaps occur. When completed the boat will have cost nearly $10,000. The shareholders elected J. Fred Hume, John R. Cook, William McKinnon, James Delaney and John Houston, directors for the ensuing year. The directors elected J. Fred Hume, president; James Delaney, vice-president, and William McKinnon, secretary-treasurer.

The engineers have experienced considerable difficulty in getting a good grade into Nelson by way of "Bogustown" without running the line beyend Anderson Creek. The engineers' next undertaking will be to find out if a suitable grade cannot be found by running the line round the base of the hill across Cottonwood Smith Creek and cutting into the Columbia & Kootenay railway about a mile and a half below Nelson.

M. S. Davys returned from his trip to Illecillewaet on Monday. He says that things are quiet up there at present. Mr. Wrightman has bonded several claims in the district and is doing development work on the best of them. The Lanark is at present shut down. Most encouraging reports continue to be brought in from the Fish Creek district, R. E. Fishburn especially being confident that he has a good thing in that country.

Work on the Iroquois has uncovered a ledge about 16 feet wide and about 4 feet of high grade ore.

Messrs. Jevons and Ashworth have struck it rich while doing assessment work on a claim at Ainsworth.

A new bond has been taken on the Bluebird by Messrs. Burke and Garrison, Mr. Taylor buying out Mr. Coy's interest in the old bond.

Work is progressing on the Great Western and the Iron Hand, lately bonded by the London Mercantile Association, and indications point to the presence of an enormous body of ore on the Iron Hand.

A number of samples of ore from the Priest Lake country were brought to Nelson the other day by a prospector. The ore looks good and runs high, assays giving 1,300 ounces silver; and according to reports large bodies of it have been found.

For nearly a year the boys on the Lizzie C. have been pegging away at a tunnel through the hardest of rock. They are now nearing the place where they may expect to strike the lead. It is to be hoped they strike it soon, and strike it rich.

R. B. Dugan has struck it rich on 49 creek. He has struck the old bed of the stream. A layer of quicksand covers the paystreak, which he has contrived to get through for the first time, and although he has not yet reached bedrock, he took out 10 ounces of gold from the gravel below the quicksand, in an hour and a half. A lease has been applied for to work a stretch of ground above his claim, and a company will be formed to take hold of it.

KASLO.

(From the Hot Springs News.)

The Lucky Jim never looked so well as now, and its owners are confident that the bond will be taken up.

No new strikes of much importance have been made, this week, but the reports from each and every claim and mine are in the highest degree favorable.

T. E. Jefferson, of Spokane, has paid the balance of the money on his bond on a share in the Washington mine. He is now the owner of five-twelfths of that fine property.

Two representatives of the Kaslo-Kootenay Land Company (probably Messrs. Hendry and Ewen) will leave Victoria for Kaslo on the 3rd instant, arriving here about the 7th.

The prospectus is now out for the Kaslo Nugget, a newspaper to be started here under the management of G. M. Walters, of Spokane.

Ore is being packed steadily down from the Whitewater mine; about seven tons are now on the beach at Kaslo. Many other claims are prepared to ship ore, but most of them will wait for the wagon road and freight down on the snow.

Work is being vigorously pushed on the Bonanza King, one of the Noble 5 group. About 100 tons of ore are on the dump ready for shipment, but the owners are endeavoring more to develop systematically their property than to take out much ore at present.

Several shares in claims lying near big properties, though with no discovered leads on them, have recently been sold at pretty big prices. People are beginning to realize that mere location in such a wonderful mineral belt as we have here offers rich chances for speculation.

By next week the wagon road will be in full swing. E. E. Coy is contracting to put it through, and all those who know his dash and energy have full faith in its being completed to Cody creek, at its junction with the South Fork of Carpenter creek, before the end of the year. The total length of the road will be about 31 miles. It will pass below all the great claims on the Slocan slope of the divide, except, of course, those on 4-Mile creek, and consequently all the ore can be brought into Kaslo on a steady down grade with only one handling.

VERNON.

(From the Vernon News.)

The townsite of Penticton is to be laid out at once. Mr. J. A. Coryell who will lay it out left for Vernon yesterday by boat.

The Silver Crown people are making preparations for pushing forward the work on their claims with additional force.

Camp Fairview has seen its ups and downs, and there is every confidence that a bright future awaits it. The financial difficulties attending development work by the Rattler Mining company were relieved on the transfer to the English syndicate. As a result of tests important deals have been made. The following are the purchases made by the syndicate: Brown Bear, Wynn M., Rattler and Ontario. The transfer was completed in Vernon on Wednesday, when between $40,000 and $50,000 were paid. Considerable surprise was caused that other mines were not bought at the same time, among them the Morning Star, the Stem Winder, the Ground Hog and the Silver Crown. The Stem Winder was the discovery claim, and on the Morning Star 200,000 tons of ore are said to be in sight.

FRENCH CREEK.

FRENCH CREEK, Sept. 7.—Mr. James R. Anderson, Government statistician, visited the settlement on Saturday last, and made enquiries in regard to the agricultural prospects of the year. He expressed himself greatly pleased with his visit.

Some new ranches have been taken up lately, and report says that many more have been applied for.

The rain-fall for the month ending August 31 was .26 inches.

CAPTURED BY RUSSIANS.

Three Boats' Crews of the W. P. Sayward Made Prisoners off Copper Island.

Sealing Schooners in the Same Waters Which Have Probably Been Seized.

A schooner was, yesterday morning, sighted in the Straits, and, thinking that she was some craft passing up or down, but little attention was paid to her. Soon afterwards, however, a ship's boat was seen heading for the harbor, and then it was that interest began to centre in the unknown one. As the boat neared the shore she was recognized as a sealer, and when the men landed they told the brief tale.

"From the Sayward; three of our boats seized by the Russians."

They at once made for Mr. Laing's house, close by, and reported to him as the principal owner. There was a dead calm at the time, and Mr. Laing hastened into town, and, getting on board the Lorne, steamed out to welcome the Sayward and tow her in. Within a couple of hours the schooner was safely anchored in James Bay, a boat lowered, and Capt. Perry put ashore. He proceeded direct to the custom house, where he reported to Collector Milne. When he entered the office he found the captains of the recently seized schooners, whom he had met off the Russian coast, perfecting their evidence, which a few hours afterwards was forwarded to Ottawa. The meeting was a happy one, and Capt. Perry was congratulated by all upon his safe return.

A COLONIST reporter was, of course, on hand, and to him Capt. Perry gave the following account:

"I left Victoria on the 16th January last, on my sealing cruise, with nineteen hands on board, all told. With one exception all were white men the exception was a Jap we called Sam. My coast catch, about 200 skins—185 I think it was—I sent down by the Maude, and then went on to the seas. Seal were plentiful, but they were awfully wild, and hard to catch. On the 12th August I was 21 miles south-east of Copper Island. The weather is peculiar there—very foggy at times, but it clears up and comes on again suddenly. On that date five boats put out, and as there was some talk as to the three mile or three league limit, I particularly cautioned the men not to go within ten miles of the shore. The weather was then clear. I had heard that one of the Marvin's boats had been captured by the Russians, and I was very cautious. I saw a Russian man-of-war—I don't know her name—that evening. She was about ten miles off, and I had also heard that her steam launch was out. I saw the smoke of the launch, but I did not see the launch herself.

"Towards night two of the boats returned, and reported that they had seen the launch making in the direction of the other boats, but could not say that they had been taken. I remained all night, signalling and flaring up (burning torches), in the hope of getting the three boats back, but there was no sign of them. The next day, I also kept about looking out for them, and there being no sign, I came to the conclusion that I could not continue with but two boats available for hunting. I thought I saw the Russian making for me, but he changed his course."

"How do you account for that?" was asked. "Had you heard of the other seizures, and the impression here that they would seize all the sealers found in those waters?"

The Captain proceeded to explain. "One of the missing hunters," said he, "told me that should he fall in with the Russian he would put him off—he would not tell him what his vessel was nor where she was. My idea is that they thought they were sure of me, and went after the boats—thinking that, with nearly all hands out, I could not work. However, seeing there was no chance of the men turning up, I sailed for home. I have 900 skins on board."

"You believe the men to have been captured?"

"I do," said Capt. Perry. "The weather was fine at the time, and the steam launch was about. There were three boats, with three men in each, the names being:

NEIL MORRISON, hunter.
HARRY BROWN, steersman.
ALEC. MCKENZIE, boat-puller.

CHAS. COPELAND, hunter.
JOHN RHODES, steersman.
SAMMY (Jap.), boat-puller.

ANDREW MCGORY, hunter.
J. WELSH, steersman.
MAURICE O'CONNOR, boat-puller.

Capt. Perry reported having seen the Annie C. Moore and the Ariel. He had also seen the Victoria on August 14, with 480 skins on board; the Agnes Macdonald, on the 10th, with 800 skins, 60 miles off Copper Island; the Arietis, on the same day and in the same neighborhood, with 1,000 skins, and several others which he did not speak. He also spoke the E. B. Marvin on the 10th, and parting company with her thought she would have been home before him. He saw her in the Straits coming in.

Asked as to the probable fate of the other schooners about Copper Island, Capt. Perry shook his head significantly and proceeded to the sealers' headquarters to report.

The E. B. Marvin, with Capt. Clarence Cox in command, passed through the bridge in tow, yesterday evening, from the sealing grounds. She also was minus several of her crew, one of her boats having been seized off Copper Island, a few days before the men from the Sayward came to grief. The five boats, well manned, were sent off from the ship's side, in the morning, and when evening came but four reported—the fifth evidently had fallen into the hands of the Russians. The Marvin kept firing her guns and otherwise signalling all through the night with the view of getting her men back, should they have but strayed away. They did not, however, return, and Capt. Cox, having cruised about for a couple of days, determined to return. He reports having spoken the Victoria, the Aretis, the Sayward, the Henry Dennis, the Favorite and the W. P. Hall. A small schooner, the Kate and Anne, was taken in by the Russians, and, having been relieved of her skins, was let go again, her captors not thinking her worth holding. The missing men from the Marvin are Billy Shields, hunter; Walter Tennyson and James Gallagher, boat pullers. The Marvin had 440 skins on board, making her total catch for the season close on 2,000

CALIFORNIA'S BIRTHDAY.

Forty-Second Anniversary is Being Celebrated by Her Sons in Various Parts.

SAN FRANCISCO, Sept. 9.—California is celebrating her forty-second birthday today. It is a legal holiday, and business is generally suspended in all localities. The largest celebration is being held at Santa Rosa, where the Native Sons of the Golden West of this city and surrounding country have turned out in full force. A grand parade took place this morning.

CHICAGO, Sept. 9.—The California pioneers of '49 and '50, with their wives and children, are holding high carnival—or just as high as their age will permit—at Jackson Park, to-day, in celebration of the 42nd anniversary of the admission of California as a state. The Mexican veterans now residing in the city, as well as a good many Californians and ex-Californians, whose memories will scarcely carry them back to the stirring days of '49, are also participating in the festivities. At the round-up this afternoon for speeches and reminiscences, President Campbell used a gavel made of historic wood. One piece came from the root of a tree which once flourished at a place formerly known as Maryville, but now called Placerville, and the branches of which were utilized for the first two lynchings in the state, whilst the other piece came from a tree at Suttersville, where gold was first discovered.

BEHRING SEA COMMISSION.

The Agents of the Principals Exchange Cases.

WASHINGTON CITY, Sept. 8.—The second phase of the Behring Sea arbitration closed yesterday with an exchange of cases between the agents of the principals. The preparations in the original case for the United States largely engaged the attention of Secretary Foster recently. It embodies the minutes of the historical collation of acts connected with Russian ownership of Alaska so far as they bear upon the question of maritime jurisdiction in Behring Sea, the control of the seal fisheries, etc., and also an exhaustive analysis of the correspondence early in the present controversy with Great Britain. The American arbitrators have been supplied with a copy of the British case, and they will be occupied with a reply for several weeks.

SANITARY REGULATIONS.

TO THE EDITOR:—There cannot be a doubt, no probable, possible shadow of doubt, no possible doubt whatever, that there is room for abundant improvement and extended sanitary operations in our city. What, at this particular juncture, is required to ward off the dangers from cholera, and other infectious diseases, is that the Board of Health should cause a visiting tour to be made in our city, more especially to the rears of all fish and butcher shops, hotels and restaurants, and cause to be removed everything offensive, and in short where pestiferous odors arise from drains, or overflowing privies, etc. Doubtless such proposition put into practice would find much that required notice and remedy. A CITIZEN.

UNCLAIMED LETTERS.

TO THE EDITOR:—At one time in the past there used to be exhibited in the Post Office, a monthly list of unclaimed letters, and many a letter reached its destination through that medium. Why such an important arrangement was discontinued, when such publication is the universal custom at other post offices, I am not aware. But this monthly published list meets a great requirement, and more particularly so in our city, where there are such frequent changes. I trust the Post Office authorities here, will bring this matter under notice, and cause it to be resumed as of yore. Yours, etc.,
W. K. B.

THE YOUNGEST CITY.

TO THE EDITOR:—Last evening Mr. Thomas Norquay received a letter from the educational department in Victoria, stating that the Government would make the usual grant towards the school here, pay the teachers salary and also $40 towards the preliminary expenses, but all other expenses incurred during the present scholastic year must be borne by the parents or the people. The letter also asked that three trustees be elected at once, and that they communicate with the department through their secretary forthwith.

On receipt of this letter the people met in the school house and elected Messrs. Wm. Goodwin, George T. Kane and Thomas Norquay as the school trustees, and they in their turn selected Thomas Norquay to be secretary. The meeting then adjourned. This morning the school trustees met and held their first session, when the secretary was instructed to procure the necessary addition to the scholars comfort which the decision of the Government had now rendered possible.

There are at present 17 children in regular attendance at the school started by the parents, and they can now boast of being the first school district formed on Kootenay Lake, yet the youngest, but the largest city with the largest population.

At 2 p.m., to-day, the fine steamer Nelson arrived with 150 excursionists from Nelson and all Kootenay Lake points, to attend a dance and enjoy other social events which are to take place here, this evening. The Galena arrived later with 60 visitors. A committee attended to receive the visitors, and showed them the chief points of interest and by this it was supper time. The party split up for this purpose, all the hotels being patronized about equally, as the proprietors are all well known hosts.

Dancing commenced at 8 o'clock and was merrily kept up till 4.30 next morning. Couples took part including many married persons, but the young men and maidens were largely in the majority. A piano, violin and violincello, gracefully accompanied the dancers and, altogether, they had a most enjoyable time. All went on board at 5 o'clock, thoroughly happy, and wishing that Kaslo City was their home.

Next week other entertainment will be given, and it is pretty evident that Kaslo means to keep up her reputation for hospitality as well as business.

THE PREMIER'S HEALTH.

A good deal has been said and written of late about Sir John Abbott's health and about the probability of his continuing in office. We give below what he says about it himself, and we do not think that it will be at all hard for the reader to see what the Premier wished the Conservative party and the people of Canada generally, to infer from his exceedingly clear and very frank statement. To a representative of the Montreal Gazette, Sir John Abbott, a little more than a week ago, said:

"My general health is fairly good; but I do not seem to recover from my weakness or regain my capacity for mental work. I took a trip down the gulf with my son. It lasted 10 days and it would have lasted longer only, when we reached Tadousac, we were informed of the Metropolitan mills having been burned down and that put a stop to the trip. My general health was benefitted by the excursion and the exercise it involved, but I do not think that my capacity for mental or sedentary work was at all improved; but rather the reverse. The least discussion or even ordinary conversation for any length of time not only fatigues me, but produces extreme weakness."

This paragraph is printed within quotation marks, and the words are evidently those which the Premier used. If he had said that he intended to resign soon because he did not feel fit to perform the duties of Leader of the Government he could have hardly expressed himself more plainly. There is not the shadow of a doubt that the Premier intended that statement to be an informal announcement of determination to withdraw from the Government, and perhaps to retire altogether from public life in the near future. The discussion, therefore, as to who shall be his successor is neither premature nor indelicate. The First Minister has himself given his party warning, and in taking steps to select the next Premier they are clearly acting according to his forcibly expressed desire. We, for our part, cannot see why there should be any delay in coming to a conclusion on this important point. Sir John Thompson is so clearly entitled to the position, and so well qualified to occupy it, that, if he is willing to accept it, it should be offered to him as soon as Sir John Abbott has in terms declared his intention to resign.

GENERAL PREPARATIONS.

We find that, from the Atlantic to the Pacific, the city authorities are taking precautions against the cholera. They see what a fearful responsibility they incur if they allow the cities under their authority to remain in an unsanitary condition. The corporations of Quebec and Montreal are acting with promptitude and vigor, both with respect to the isolation and disinfection of ships and immigrants, and the cleaning of streets and lanes and backyards. Toronto is on its guard, and is determined not to be taken by surprise. The Mail of that city says:

The fate that has overtaken Hamburg is a warning to all cities. No one who has the interests of the city he lives in at heart can read the deplorable story of the dead and dying in that German port and of the sad lack of proper means for dealing with the victims of the epidemic prevailing there, without experiencing a strong desire to do all that in him lies to make his own city clean and healthy. The fault at Hamburg appears to have been that its authorities were not ready for the disease when circumstances brought it into their borders.

Detroit has established a quarantine and has also gone into the work of cleansing.

The people of San Francisco are alive to the danger with which they are threatened.

The Chronicle, of that city, does not think that the people should rest satisfied with what the authorities are doing for them. It believes that all should join in the work of making the city clean. It says:

All the efforts of the municipal authorities—Board of Health, Board of Supervisors, Superintendent of Streets, police and all—to cleanse the city and make it thoroughly resistant to the cholera will be of little practical benefit unless they be aided and supplemented by personal and individual efforts in the same direction. Nor will it be enough that each one mind his own business in this matter. He must mind his neighbor's business as well, and appoint himself a committee on foul odors, no matter whence they emanate

Portland has been exhorted to "clean up," and it is acting upon the sound and earnest advice it has received.

Everywhere, except in Victoria, the necessity of making the cities cholera proof is recognized. Here the city authorities are apathetic, and require to be "prodded" before they have recourse to even the ordinary means of preserving the public health. They seem to be converted to a fatalism worse than Turkish. "Kismit" seems to be their motto. "What is to be will be, and there is no use fighting against fate," is apparently the principal article of their creed. Those who believe in the reign of law, and in the duty of rational beings to use every means available to avert danger, should try to rouse our civic authorities out of their fatalistic doze.

CRIME IN CANADA.

We have received from Ottawa a blue book containing the criminal statistics of the Dominion for the year ended 30th September, 1891. The information it contains is valuable to all who take an interest in the moral condition of the people of this Dominion. We are glad to see that the statistics show that there was less crime committed in the Dominion as a whole in 1891 than there was in 1890. In nearly all the provinces there has been a decrease in the number of convictions.

British Columbia, we are sorry to say, stands at the head of the list which shows the number of convictions. In 1890, the convictions were 19·75 in the 10,000 inhabitants, in 1891 the proportion was only 14·85 in the 10,000. In Ontario, the convictions were 10·14 in the 10,000 in 1890; in 1891 the number was 9·67. In Quebec there has been a slight increase. In 1890 there were 1,220 convictions, in 1891 the number was 1,356, being respectively 8·28 and 9.11 in the 10,000.

There were, last year, 5,988 persons charged with indictable offences in the whole Dominion. Of this number 1,952 were discharged and 3,964 convicted. This gives 8.20 convictions in the 10,000 inhabitants. The report says, in explanation, that in the "Indictable offences are included all cases tried by competent magistrates with the consent of the accused (whether acquitted or convicted) in accordance with the Acts respecting "Speedy Trials," "Summary Trials by Consent," and "Juvenile Offenders, Chapters 176, 177 and 178, Revised Statutes of Canada."

We see by the report that, as might be expected, the women of Canada are far less prone to commit crimes than the men. Of the 3,964 persons convicted of indictable offences, only 282 were females, or 7.1 per cent. The persons convicted under 16 years of age were 615, or 15.5 per cent. of the whole.

Canadian criminals do not appear to be a highly educated class, as many as 919 were unable to read or write, and the education of 2,752 of the convicted persons is described as "elementary." As many as 77 are described as having received a superior education, and although they formed only two per cent. of those convicted, they were two per cent. too many. The education that does not convince the student that he is a fool to take to bad ways, and the fact of his committing a crime is proof not only of moral derangement but of intellectual defectiveness, is not worth being called education.

There were not many total abstainers among the persons convicted of crime in the Dominion last year. Of the 3,964 persons convicted of crime, 2,088 used liquor moderately, and 1,706 immoderately. This leaves only 178 persons unaccounted for, and these, we presume, were teetotalers.

The towns furnished 77.7 per cent. of the criminals, and the country 22.3 per cent. There were 3,522 persons convicted for a first time, 235 for a second time, and 207 for a third time and over.

To judge by the sentences the greate number of the crimes were not very serious. Seven persons were sentenced to death, two to imprisonment for life, 119 for five years in the penitentiary and over, 299 for two years and under five, 184 to one year and less than two, 1,916 to gaol for less than one year, 571 to option of a fine, and sentence was deferred or the prisoners were bound to keep the peace in 665 cases.

There has also been a slight decrease in the number of convictions by justices of the peace out of sessions throughout the Dominion. In 1891 the convictions for drunkenness, assault and battery, vagrancy, breaches of municipal laws, etc., were 33,451 in 1890, the convictions for the same offences were 34,606. The greatest decrease has been in Ontario, but in Quebec there has been a small increase of summary convictions. The prerogative of pardon was, 1891 exercised in 120 cases; in 1890 157 persons were pardoned.

A CAUTION.

We see in newspapers and magazines directions respecting what it is proper for persons exposed to a visitation of the cholera to eat and drink. There is a general impression that brandy is a good thing to keep away the cholera, and also to cure it when it does come. The idea is that it is hard to take too much brandy, both when the cholera is near and when it has come. This is not the opinion of Mr. Cyrus Edson, who has a paper on the cholera in the North American Review. He says:

It is well here to say a word about liquor. Many people believe that brandy, if taken freely enough, will save them from cholera. That brandy has its uses I would be the last to deny, but, assuredly, one of these is not drinking it all the time when there is an epidemic of cholera to the fore. To those who have this idea it is far more dangerous than the disease, and for this reason: The one thing necessary is to keep the health as perfect as possible. Now everyone knows that constant drinking weakens the person who drinks and deranges the stomach, and that weakness and disordered digestion invite disease.

The warning is timely. Those who take frequent nips of brandy to fortify them against the cholera should know that they are doing what is weakening them, and making them less able to resist an attack of cholera instead of making themselves stronger and less liable to take the disease. It should never be forgotten that stimulants no more strengthen the body than frequent cuts of the whip strengthen the horse.

EDITORIAL COMMENT.

There are still many sealers in Behring Sea. Some have been seized and deprived of their liberty by the Russian authorities, and there is no knowing how many more may have fallen into their clutches. Would it not be well to use the proper means to find out what truth there is in the rumors that are afloat, so that before the cold weather sets in relief may be sent to those who have fallen into the hands of the Russians? Men exposed to the severity of a Siberian winter and to the hardships of life in a Siberian seaport will be in a condition truly pitiable. That many of them will die of starvation, ill-treatment and exposure may be regarded as certain. Detention or imprisonment in Petropaulovski for even a few months means misery to them all and sure death to many. They ought to be rescued while rescue is possible.

Our Public Schools

Are the main-stay of our republic. In them are being cultivated the minds which are to be our future law-makers and leaders in every walk in life. How essential it is that these minds should be united to strong, healthy bodies. So many children suffer from impurities and poisons in the blood that it is a wonder that they ever grow up to be men and women. Many parents cannot find words strong enough to express their gratitude to Hood's Sarsaparilla for its good effect upon their children. Scrofula, salt rheum and other diseases of the blood are effectually and permanently cured by this excellent medicine, and the whole being is given strength to resist attacks of disease.

Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhœa, and Feverishness. Thus the child is rendered healthy and its sleep **natural. Castoria** contains no Morphine or other narcotic property.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 South Oxford St., Brooklyn, N. Y.

"I use Castoria in my practice, and find it specially adapted to affections of children." ALEX. ROBERTSON, M. D., 1057 2d Ave., New York.

"From personal knowledge and observation I can say that Castoria is an excellent medicine for children, acting as a laxative and relieving the pent up bowels and general system very much. Many mothers have told me of its excellent effect upon their children." DR. G. C. OSGOOD, Lowell, Mass.

THE CITY.

Canton Victoria No. 1.

Canton Victoria No. 1, I.O.O.F., meet this evening. As some matters of importance will come up, a full attendance is requested.

Miscellaneous Sale.

On Tuesday next, at 11 a.m., Captain Clarke will sell at his rooms, Yates street, a valuable miscellaneous collection of household goods, books, etc.

A Sermon for Templars.

Rev. D. MacRae will conduct a special service for the members of the local lodge of Good Templars, to-morrow evening, in St. Paul's church, Victoria West.

B. C. Agricultural Association.

A meeting of the management of the B.C. Agricultural Association will be held in the secretary's office, on Monday evening next, to consider important business.

"C" Battery band at the races, to-day.

Music at the Driving Park.

The energetic committee of the Victoria Jockey Club, which has charge of the fall races, has arranged to have the C Battery band at the Driving Park to-day. This of itself should draw a good crowd, and it is hoped the attendance will be up in the thousands.

To-day's Races.

The British Columbia Derby which will be run at the Driving Park to-day, promises to be one of the best races ever seen in the province. Certainly the purse is the largest ever offered. It amounts in all, to over $800, and will be well worth winning. It will repay those who go out to the Park to see this race alone.

Summer Hotel for the Pass.

W. H. Maudesley of Plumper's Pass is at present sojourning in this city. He is ostensibly here for pleasure only, but there is more than a whisper in the air that his visit has considerable to do with the formation of a company and the establishment of a first class hotel for tourists at the Pass. Such a resort would undoubtedly pay from the start, and pay well.

"C" Battery band at the races, to-day.

"A Night at the Circus.

Lovers of the modern "60 laughs in 60 minutes" style of drama are impatiently awaiting the arrival of Nellie McHenry in "A Night at the Circus," which will be rendered at the Victoria on Monday and Tuesday evenings next. "A Night at the Circus" is said to have had a most successful run in the East and on the Sound, where it is now being presented.

The Coming Exhibition.

Mr. Wm. Dalby, superintendent of the B. C. Agricultural Association, reports numerous requests for space in the main building by intending exhibitors. From the present outlook it is believed that the exhibition of 1892 will exceed in interest in every department that of any previous year. Manufacturers and others who require space should make early application to Mr. Dalby for the same.

Moonlight on the Waves.

The moonlight excursion of the Methodist Church people and friends takes place this evening. The steamer Joan has been chartered for the occasion, and a band of music will be on board to enliven things. The trip will be out to Race Rocks and Esquimalt harbor, with a visit to the Warspite. As only a limited number of tickets will be sold, there is no danger of overcrowding. This is an excellent opportunity to spend an enjoyable evening.

"C" Battery band at the races, to-day.

Two Years for Forgery.

Robert Staite was up in the Supreme Court yesterday morning for the purpose of electing whether he would wait for the assizes or take a speedy trial. He chose the latter and appeared before Mr. Justice Walkem for trial at 2:30 in the afternoon. The case for the crown was conducted by Mr. Gordon Hunter, public prosecutor. The prisoner plead guilty to the charge and asked the clemency of the court. His lordship said that while he felt much sympathy with the feelings of the prisoner, still he had no one to blame but himself, and the crime of forgery being one which had to be punished severely, striking as it does at the very foundations of all commercial business, a sentence of two years imprisonment was imposed.

Moral Reform Association.

The Temperance and Moral Reform Association met in the Y. M. C. A. rooms last evening, under the presidency of Mr. Alex. Wilson, the business for which the meeting was called being the election of vice-presidents. As it was considered politic not to make the work of the association public, all who would not promise secrecy were invited to withdraw—and two gentlemen complied. The necessity of increasing the membership of the league was the chief topic of business discussed, two members from each city church being named to "drum up" new members, in the hope of having a roll of 200 by next week, when the campaign against vice in all its forms will be entered upon. Complaint was made about the opening of Chinese stores on the Christian Sunday, and this will probably be one of the first "evils" attacked.

"C" Battery band at the Driving Park, to-day.

An Intolerable Nuisance.

A couple, at least, of the city scavengers, have notified the City Council and the public that they will no longer ply their business until dumping grounds are supplied for night soil. The resolve was received with no small uneasiness by householders generally, who desire to keep their premises in a sanitary condition. No sooner, however, was the announcement made than a few owners of carts privately canvassed the business, and where they dumped the refuse was, until the last few days, a mystery. There can now be no doubt that the beach at the Dallas road is made the receptacle, several cart loads of night soil having been deposited there early on Tuesday morning. The loads are brought down to the water's edge and there dumped, the material being covered with a little of the shingle and left to be distributed by the incoming tide along the shore. The affluvia is most offensive, and this popular drive and walk is now being deserted. The residents along the road protest loudly against the practice, and having reported to the City Council and the police in vain, are about to engage a special constable to prevent the continuance of the nuisance. A prosecution will, no doubt, ensue, should the scavengers persist in their action.

Next on the List.

Yon Yonson closed his Victoria engagement last evening, house and performance being fully equal to the first night. Nellie McHenry's "Night at the Circus" comes next.

"C" Battery band at the races, to-day.

Hospital Collection.

To-morrow will be Hospital day in the various Methodist, Presbyterian and Baptist churches, and the collections taken will be devoted to the institution for the care of the sick.

At the Barracks.

There will be interesting and special meetings, in connection with the Harvest Festival, at the Salvation Army barracks to-day, to-morrow and Monday, led by Staff Captain Banks.

Will Await the Assizes.

The Chinaman who was committed for trial for attempted murder, some days ago, was up in the Supreme Court, yesterday, for the purpose of selecting a mode of trial. After due deliberation the Mongolian concluded to wait for the assizes.

Off for Alaska.

Captain Barry, of San Francisco, and Captain McLellan, of the Coquitlam, will be passengers from this port for Alaska this morning. The California gentleman is on legal business in connection with the seizure of San Francisco schooners in Behring Sea; Captain McLellan will be present at the trial of the Coquitlam case, and bring the steamer home after it is over.

"C" Battery band at the Driving Park, to-day.

Later on the Peram.

Wm. Marshall felt partial for girl A. lovely curl. Billy said: "Might wed with speed, but need, case marriage, baby carriage." Bad man made plan, one day rolled away, case marriage, baby carriage. Cap found, on round, lane buggy, looking groggy; shocking sin; runs it in. Time past—at last, justice blind, makes find, and Billy looks silly in court, no sport. Judge says "sixty days."

The Camp Meeting Grounds.

The committee appointed to look up and report upon suitable sites for the proposed Methodist camp meeting grounds, will meet next Friday, for the purpose of making a report. The idea has met with general commendation, and there now seems no doubt but that it will go through. Several sites of from five to ten acres have been looked over, and it is probable that at the meeting, Tuesday, some of the more desirable of them will be selected for the consideration of the general committee.

"C" Battery band at the Driving Park, to-day.

City Police Court.

John S. Glover, charged with being drunk, was up in the Police court, yesterday. John tried to explain that when he read the account of the Sullivan-Corbett contest, the result brought on a dizziness, from which he failed to recover in the prescribed time. His Honor thought that $5 would be about the right amount to impose for the failure to respond when the gong sounded, and it was so ordered, with ten days as an alternative in case of default.

Walter Colston was assessed $5 toward the fund to have the swans take a course at Prof. Bob Foster's college, so that they can protect themselves in case the coon should escape again.

John Mitchell, charged with the larceny of a horse from Turner, Beeton & Co.'s wharf, was discharged, as there was plainly no intention to make way with the animal. The whole trouble arose from the fact that the owner of the horse could not find any one to pay the freight to, and sent the horse off in charge of Mitchell, who was met by the wharf-keeper, and, as the result of a quarrel about the matter, arrested.

"C" Battery band at the Driving Park, to-day.

To Kill Panthers.

A public meeting will be held this evening, at McPherson's for the purpose of organizing a company for the destruction of the numerous panthers which are making the ranch owners of that section weary of life. Sheep have been killed in large numbers, and the cattle-raising industry is almost at a standstill from the depredations of the monster feline. The Government has under consideration the raising of the head-tax on panthers, in order to further encourage the destruction of the savage brute. The whole section in the neighborhood of Cobble Hill, Duncan's and McPherson's seems to be swarming with the animals, and the farmers are almost compelled to take some concerted action in the matter or leave the country. The intention this evening, is to appoint a captain and organize a squad which will work under his directions, and start in at one end of the section and work slowly through it, killing as they go. Then make a cross move and cover the ground again. By this means the greater number of the animals would either be killed off or run out of the country.

IMPORTANT TESTIMONY.

A gentleman, prominent in business and social circles in St. John, New Brunswick, testifies strongly in favor of Lactated Food.

Mr. Fred. R. Titus, of the well-known firm of White & Titus, has a knowledge of what Lactated Food accomplished in his own family, and now kindly writes for the benefit of mothers and others interested in infants, young children and invalids generally; he writes as follows:

St. John, N.B., 9th July, 1892.

Wells & Richardson Co.

DEAR SIRS,—I have much pleasure in testifying to the superior excellence of your Lactated Food for infants and invalids, as I have seen the most beneficial results from its use.

We have seven children, and consequently have had some experience with foods, having used a number of kinds; but we find your Lactated Food superior to all others, particularly AS A REGULATOR OF THE BOWELS.

I have seen its use attended with good results when no other food could be kept on the child's stomach. You can use this in any way you please, as I believe the lives of many children could be saved by the use of your Food.

Yours truly,
FRED. R. TITUS.

CHESS.

THE FIRST STEP TAKEN.

The first step toward the organization of an active Chess Club in this city was taken yesterday afternoon, when a meeting was held in the Synod rooms, with Rev. J. B. Hewetson in the chair and Mr. J. Kingham acting as secretary. Messrs. Maurice, Innes and Kingham were appointed a committee to find suitable rooms, ascertain how many members will join the club, draft a constitution, and report on Thursday, September 15. In the interim, anyone wishing to join is invited to communicate with Mr. Kingham.

WRESTLING.

QUINN AT WINNIPEG.

THE WHEEL.

BEATEN BY THE BICYCLE.

SPRINGFIELD, Mass., Sept. 9.—Another day of record smashing has passed into the history of bicycle racing. Zimmerman again distinguished himself, but he shared his laurels with Windle, the fast Millbury rider.

Zimmerman first started for Nancy Hanks' mile record, with a flying start. He did not succeed, but established a bicycle record of 2:08 4-5. He next tried the flying start half mile, making it in 1:00 1-5. Geo. F. Taylor lowered Zimmerman's flying mile to 2:08 1-5. The New Jersey rider was then sent after Nancy a second time, and eclipsed her record, made on a regulation track, by 1-5 of a second. His time was 2:06 4-5. About 2,000 spectators witnessed the test, and nearly went wild when the result was announced.

THE TANDEM RECORD.

SPRINGFIELD, Mass., Sept. 9.—Yesterday afternoon, George Banker and Cathess, in regular trial, reduced the mile tandem record to 2:14 4-5, beating 2:17 2-5 made by Zimmerman and F. G. Bradbury at Hoone Hill, England, on July 19.

THE TURF.

DOMINO TO BE SOLD.

After the first race, to-day, at the Driving Park, Mr. Shaw's well known colt Domino, which ran so well for the Queen's Plate, at the spring meeting, and came in second in the first heat of the half mile and repeat, on Thursday, will be sold by auction. This will be a good chance for some one, as Domino is much fancied. He would make a good horse to enter in the Vancouver race for beaten horses.

SUNOL NOT SATISFIED.

NEW YORK, Sept. 9.—In speaking of Nancy Hanks' record, Robert Bonner says: "I am having a special bicycle-pneumatic-tire sulky built under my own direction. It will be built of steel. There is little doubt that I shall take a shot at Nancy Hanks' record with Sunol some time before the end of the season. It is almost certain that Sunol, always superior to Nancy Hanks under ordinary circumstances, will lower the record when she, too, has the advantage of a pneumatic-tire, ball-bearing sulky. It will not give Maud S. another chance, this year. Next year, I may take another shot at the record with her; that is, of course, if she fails to produce a foal. I still think Maud S.'s 2:08¾ on an ordinary track with an old-fashioned sulky is intrinsically the best time known."

DIXON AND GRIFFIN.

NEW ORLEANS, Sept. 9.—A $1,000 forfeit has been posted by Jimmy Carroll, on behalf of Johnny Griffin, for a fight with Geo. Dixon, for a stake of $10,000 and as large a purse as may be offered by any club, the conditions of the proposed fight to be like those that governed the Dixon-Skelly contest.

IN THE SWIM.

AYLMER, Que., Sept. 9.—The celebrated Canadian stallion, Goldring, trotted a mile here yesterday in 2:19½, lowering the trotting record for Canada on a half mile track.

EXPRESSLY FOR EXPRESSMEN.

WESTMINSTER, Sept. 9 (Special).—A race expressly for expressmen will take place during the first day of the Jockey Club meeting. Each expressman is to drive his own horse.

THE DONCASTER CUP.

LONDON, Sept. 9.—The race for the Doncaster Cup to-day was won by Chesterfield, the four-year-old chestnut colt by Wisdom out of Bramble; Mr. H. C. Bonsor's three-year-old chestnut colt Thessalian, by Wisdom out of Prickles being second, and the three-year-old brown filly Brandy, by Retreat out of Restorative, third.

IN COMPETITION.

CLEVELAND, Ohio, Sept. 9.—The record for a mile in a race, on a regulation track, was broken this afternoon by Evangeline, who won the deciding heat in a free-for-all trot in 2:11¾.

THE RING.

WILL NOT MEET JACKSON.

NEW ORLEANS, Sept. 8.—The biggest loser on Sullivan, as far as can be ascertained, is John Kelly, of New York, the ex-baseball umpire, who backed the great champion for $21,000. If ever there was a crest-fallen crowd of sporting people it is the Manhattan contingent from New York. They came here full of enthusiasm for Sullivan, and staked money on the issue. They came on a special train, and counted on making it a banner train from New Orleans to New York, and Mr. Blake, of the Manhattan Athletic club, who is in charge of the party, claimed yesterday afternoon that they had bought up all the red, white and blue lights to be found in New Orleans, and they intended setting them off all along the road on the way home.

Parson Davies, who won a large amount of money on Corbett, will issue a challenge in a few days in behalf of Peter Jackson to fight Jim Corbett for a stake such as he will then name, or that can be agreed upon, and the largest purse offered.

Delaney thinks Sullivan could have been whipped at any time after the first round, but he advised Corbett to "lay low," and Corbett followed his advice, although he did it with reluctance, desiring to show the crowd what he could do.

"Corbett will never meet Jackson," said Delaney. "We are against fighting negroes any more. Besides, Corbett has bested Jackson already, and there is nothing to be gained by fighting him again. We will pay no attention to Mitchell."

"For the present we will ignore all challenges," said Delaney. "We have engagements very far ahead."

Champion Jim Corbett will bid adieu to his New Orleans friends to-morrow afternoon. The Corbett people have engaged a special train on the Piedmont Air Line, leaving here Saturday morning at 4 o'clock. The young pugilist will receive a rousing send-off, notwithstanding the early hour.

Corbett showed his generosity in a remarkable manner, last night, when he sent word to Sullivan that he would not only spar four rounds with him at the benefit to be held at Madison Square Garden, September 27, but would pay $1,000 for a box for the performance. When Corbett went to Sullivan's corner and helped him to his feet, he held out his hand and said: "John, will you shake hands with me?" and Sullivan replied: "Yes, my boy, I'm glad it was you that won."

THE BUNCO MAN AGAIN.

He Relieves a Countryman of $125 and Plays a Bold Game for More.

The Signature of Mr. C. Bossi Forged on the Business End of a Check.

The festive bunco man has again got in some of his fine work in Victoria during the past few days. He came up serenely in the shape of a man who claimed to be a son of Mr. Fugazzi, a merchant of San Francisco. His victim was soon located in a resident of the rural districts. To this guileless individual he unfolded a scheme—that of purchasing a fruit stand on Government street.

For this it was necessary to have $450, and for Fugazzi's share he produced a check for $250, bearing the signature of Carlo Bossi.

The victim produced $125 in cash, which was all the money he had at the time. The check was shown to the proprietor of the stand, who said that the name was good for the amount, not knowing of course that the check was a forgery. The $125 was taken by Fugazzi, who left the check at the stand and told the quasi-partner to try to raise the remainder of his share.

Now comes the second chapter of the little scheme. The would-be merchant has a brother in another part of the country. Of this brother Fugazzi learned in some way and wrote to him that his brother was about to be tried for a crime which the sum of $200 would square in such a way as to save him from going to prison for a term of years. This amount he advised the brother to send in his care.

The brother became alarmed and instead of sending the money came to town himself. He arrived just in time to prevent his brother from paying the remaining amount of his "share" in the proposed purchase, but in some way the financier had received an inkling of the arrival of the brother and had taken his departure.

No clue to his whereabouts has so far been discovered.

Colligny College, Ottawa.

This college was purchased three years ago by order of the General Assembly, and is now conducted as a high class, young ladies' college, under the auspices of the Presbyterian church in Canada. As no dividends have to be paid to stockholders, the fees for board and tesition have been made exceptionally low so as simply to cover expenses, the staff of teachers is a thoroughly efficient one. I Had Goitre

Or swellings in the neck since I was 10 years old; am now 52. I used Hood's Sarsaparilla recently and the swelling has entirely disappeared It has been very troublesome. When I began I was feeling so discouraged with the goitre and rheumatism I felt that I would as soon be dead as alive. Whenever I caught cold I could not walk two blocks without fainting. Now I am free from it all and I can truly recommend Hood's Sarsaparilla. I received a letter from Mrs. Jennie Bigelow, now of Fremont, Mich., asking if my testimonial in behalf of Hood's Sarsaparilla was true; I replied it was, and sent particulars. I have another letter from her thanking me very much for recommending

FIRST-CLASS SPORT.

Another Very Successful Day at the Victoria Jockey Club's Fall Meeting.

A Poor Attendance at the Driving Park, But Good Contests for the Purses.

Again the Favorites Win—Programme for To-day—Notes of the Track, Etc.

The second day's races of the Victoria Jockey Club, at the Driving Park yesterday, were very successful in every way except one—the absence of a large crowd of spectators who should have graced the grounds with their presence.

Contrary to expectations, the attendance was small, but those who did come were very enthusiastic, and had good sport for their money and profit for their time. It was emphatically the favorites' day in every way, and the results came just as the pools sold, showing that the buyers were possessed of rare powers of discrimination—and had good luck.

There were no surprises of any account, the only danger of one being when it looked as though Mollie Cooper was going to capture the purse in the trotting and pacing. That was only for a short time, however, and when Hickey took the fourth heat, few still expected to see Mollie a victor.

Everything went just as smoothly as on Thursday. The weather was perfect, perhaps a trifle warm as weather goes, but all the more pleasant for the spectators on this account. The judges, starters, etc., gave general satisfaction. They were the same as given yesterday, with the exception that Hon. C. E. Pooley held the flag for the runners.

Following is the

THE TROTTING RACE.

The first race on the card, trotting and pacing, free for all, was not looked forward to with an especial interest, for the reason that Mink was generally conceded to have a sure thing of it. Before the first heat Mink sold at the pools a hot favorite with Mollie Cooper second, and the others in the field. When the first heat went to Mink, those who "knew," said, "I told you so." The second heat though went to Cooper, and even then the admirers of Hickey's horse were confident. In the third heat, however, Mink again distinguished herself by breaking at all times and in all places, and ran about a quarter of the distance, Mollie Cooper getting this heat also with Primero second, the grand stand expressing its appreciation of the judges' decision by a round of applause. The race had now come down practically to one between Mollie Cooper and Mink, although Primero started and kept inside the distance flag. Mollie broke at the three-quarters, and disappointed her friends by losing the heat. This made it two to two, but Cooper was considered played out, and those who held Mink tickets were satisfied to let good enough alone, so that no more pools were sold. The fifth heat settled it—Mink, the favorite, was winner.

HALF-MILE AND REPEAT.

After the second heat of the trotting race, the first heat of the running half-mile and repeat was called. Shamrock was first upon the track, looking in good condition, but still bad tempered as on Thursday. This time J. Wilson was up, however, and had better control than McGuire had. Domino came out with Gannon up, and shortly afterwards W. McNeill led Leapyear out, the latter looking very fit. W. Millington was to ride her and was confident of making a good race. Shamrock was the favorite, however, by long odds, selling at the pools for 20 while Leapyear went for $, and Domino for 3. Notwithstanding the low price, perhaps because of it, there were a good many buyers for the McNeill mare, principally among those who had seen her brilliant performance when she won the Queen's Plate at the spring meeting. The first heat went to Shamrock and the second too, Leapyear coming in last in the one and second in the other.

THE MILE DASH.

Marcelle was a decided favorite with all, the other horses being thought out of it. The Broadmead mare was saddled in front of the grand stand and looked every inch the race horse she is. Jim Murphy too, looked well with Mitchell up, but was not thought to have any show against the handsome black.

McGuire was up on Ripton with Roland on Johnnie Hooker, the latter running well and in unusually good temper. None of them looked any the worse for their races of Thursday. Ripton was greatly fancied for place, although many thought Hooker would give him a close race for it—perhaps beat him. The result was just as anticipated, Marcelle taking first, Ripton second, and Hooker third, Murphy away behind.

HOW THE HEATS WENT.

First heat, trotting—Primero had the pole, with Ha Ha second, Mink on the outside. The horses were a long time getting a start, but after frequent scoring, Ha Ha got away first with Mollie Cooper behind. At the turn Mink took the lead, which he increased at the quarter, Ha Ha breaking badly. At the half, Mollie Cooper was second, a length behind Mink. Primero and Ha Ha had dropped away behind at the three quarters, the pacer leading with Mollie Cooper just a length behind. Coming into the stretch Reilly was whipping and kept it up to the wire, but was not able to push ahead, Mink taking the heat by a little over half a length. Primero and Ha Ha were just inside the distance flag. Time—2:34.

Second heat—Mollie Cooper and Mink came out upon the track before the time was up. They got together and made what the drivers considered was a good start. Some one in the crowd called out "go," and they "went." Mink was ahead at the half, but when past the turn Reilly turned Brown's mare back, and Hickey, after trotting 200 yards, came back also. Then Ha Ha and Primero came out and the quartette started. They scored several times, but finally got away, Primero having a good start with Hickey in the lead. Mink broke badly and at the quarter was about 25 lengths behind Primero, who was a length in rear of Mollie Cooper. At the half Mollie Cooper and Primero were in the same position, and Mink going well was closing up. At the three-quarters Mink again broke, but Hickey brought her to her feet. Entering the stretch Mollie Cooper increased her lead and won the heat by two lengths, Mink being third, 15 lengths behind Primero. Ha Ha, who had been breaking badly, all the way round, was distanced. Time—2:39 1-5.

Third heat—All got away together, Mollie Cooper slightly in the lead. Mink and Domino broke badly at the turn, and at the quarter Mollie Cooper was ahead by ten lengths. Hickey got Mink on her feet, and brought her to the half only a length behind. At the three-quarters Mink, now neck and neck, broke again and lost a length, but, coming into the stretch, made up the lost distance, and came under the wire a length ahead, with Mollie Cooper the same distance in front of Domino. The heat was given to Mollie Cooper, with Domino second, on account of Mink's bad breaking. Time—2:37.

Fourth heat—Before the start Hickey was called up to the judges' stand and warned that if he let Mink run he would be distanced. They got a good start after scoring, Mink leading, with Mollie Cooper second. At the quarter the lead was ten lengths. In the stretch Mollie Cooper closed up the distance to a length at the half. But over at the three quarters both horses broke, and Mollie did not get down to work till Mink had a lead of three lengths. Entering the stretch this was closed up, Mink just keeping a length ahead to the wire. Domino third. Time—2:38½.

Fifth heat—Repeated scoring marred the start. After half an hour had been wasted, the horses got away, Mink having the best of it, and leading at the turn, gradually increasing the distance to the quarter, when Mollie Cooper came up, but was not able to hold the pace, and again fell behind, so that at the half she was a length away. At the three-quarters Mink began to get away, and when the wire was reached had fifteen lengths good lead, with Domino just a neck behind Cooper. Time—2:40.

First heat, half-mile and repeat—Domino was at the pole with Shamrock on the outside. Shamrock was again bad tempered as on Thursday, and Leapyear was also a little hard to start. When they finally got away at the fall of the flag, Shamrock had slightly the best of it with Domino second and Leapyear third. At the turn Leapyear was slightly ahead but ran away on the outside of the track, Shamrock taking the pole and leading all the way round. At the quarter the Kamloops horse was two lengths ahead, Domino second and Leapyear third; at the stretch the same positions were maintained and coming under the wire Shamrock took the first heat in a hand canter, two lengths ahead of Domino who was the same distance in front of Leapyear. Time—54 2-5.

Second heat—Shamrock was again bad tempered, and tried to take the fence, but Wilson held him well. The first try Shamrock got away first, and ran nearly to the quarter before he could be stopped. The next try it was Domino who got away. He ran to the fence, where, to save a fall, Gannon had to dismount. After another break or two they got away to a good start, Leapyear leading, with Domino second and Shamrock in the rear. At the turn Leapyear increased the lead a little. At the quarter the lead was a length, Domino second and Shamrock third, but the Kamloops horse was now running in great style, and closed up the gap, entering the stretch neck and neck with Leapyear, Domino only a length behind. From this it was a race to the wire, but the little mare could not make it, and Shamrock took the second heat and the race, winning easily by a length, Leapyear second. Time—54 3-5.

The mile dash—After just one try the horses got a good start, Hooker first, Ripton second, with Marcelle in the rear. Marcelle took up the running at the turn, and led by a length at the quarter, followed by Hooker and Ripton, Murphy tailing off. Coming into the stretch for the first time, the black mare led by two lengths, Ripton second, three lengths off Hooker. Passing the stand for the first time, Marcelle was two lengths ahead, going at an easy swinging gallop. At the turn Roland began to ride Hooker, and at the three-quarters raised his whip. Marcelle was then three lengths in front, Hooker second, Ripton third. Rounding the turn into the stretch, Marcelle commenced to increase the lead, with Hooker working hard for place, followed by Ripton. After a good race down the stretch Marcelle passed under the wire five lengths ahead, Ripton second, a neck ahead of Hooker. Time—1:49.

TRACK NOTES.

Lieut.-Governor Nelson rode out to the grounds yesterday on a handsome bay.

The number of private carriages was not very large. There will be more for the final outing to-day.

The track was very dusty all afternoon. It had been wet, but dried up in the hot sun.

The pool sellers did not have very much of a harvest to gather in, the favorites being too pronounced.

Much disappointment was expressed that Mayflower was scratched in the half mile and repeat. She was sore after Thursday's victory.

A number of members of the Yon Yonson company watched the sport from the grand stand.

There was a full force of provincial constables, in charge of Sergeant Langley, to preserve order. But there was no need of their services, everyone being good natured.

The fiend in the grand stand who calls out "go" when he thinks the judges don't know a good start when they see it, was there again, yesterday. Starter Dalby warned him if he did it again he would be put out of the stand. Then he desisted.

The COLONIST tipped the two winners, the third horse named, Mayflower, having been scratched.

The COLONIST tips for to-day are:

First race—Evora.
Second race—Marcelle.
Third race—Victoria.

POOLS SOLD.

Pools for to-day's events sold, last evening, as below:

Trotting and Pacing—Dart 10, Evora 7, field 4.
Derby—Ilex 10, field 10.

MISCELLANEOUS.

FOR MEN ONLY.
This title does'n "go" any more, as the ladies have adopted about everything shown above, unless it be the pants. But the lords of creation are forced to plod in the beaten track, and there is little change this season in men's apparel.
The "change" is fairly rapid with us, however, as we are making a splendid drive in neckwear and furnishings this week.

"REPEALING HEALTH RULES, 1892."

[L.S.] HUGH NELSON.

THEODORE DAVIE, *Attorney-General.* WHEREAS the epidemic of small-pox recently prevailing has been brought under effective control, and there appears to be no longer any necessity for the continuance in office of the Provincial Health officer appointed under Order in Council bearing date the 9th of July, 1892, or for the further exercise and performance by him of the powers and duties assigned to the Provincial Health Officer by the "Provincial Health Rules, 1892," and the "Supplementary Provincial Health Regulations, 1892":

Therefore, His Honour the Lieutenant-Governor has, by and with the advice of His Executive Council, been pleased to order, and it is hereby ordered, as follows:

1. The said Order in Council is hereby repealed, and the therein mentioned John Chapman Davie, and the officer appointed by him under section 2 of the said Regulations, are, and each of them is, hereby relieved and discharged from the further exercise of any and all powers on them or either of them conferred and from the further performance of any and all duties to them or either of them assigned, under and by virtue of the said Rules and Regulations, or any of them, and the powers and duties of the Provincial Health Officer under the said Rules and Regulations shall devolve upon and be performable by the Municipal Health Officer in each of the Cities of Victoria, Vancouver, New Westminster and Nanaimo, and in other cases by the Local Boards of Health in and for their several Districts, and the powers and duties of the officer appointed under section 2 of the said Regulations shall henceforth devolve upon and be performable by the Municipal Health Officer for the City of Victoria.

2. Sections 1, 2, 3, 4, 7, 8 and 9 of the "Supplementary Provincial Health Regulations, 1892," are hereby repealed.

3. No order, act or thing hitherto made, done or transacted anywise howsoever under or by virtue of the said Rules and Regulations, or any of them, shall in any way whatever be invalidated, avoided or made ineffectual by reason only of any repeal contained in these Rules.

NOTICES.

GOVERNMENT HOUSE, VICTORIA,
Thursday, the 14th day of July, 1892.

PRESENT:

HIS HONOUR THE LIEUTENANT-GOV. ERNOR IN COUNCIL.

UNDER the provisions of the "Health Act" His Honour the Lieutenant-Governor, by and with the advice of the Executive Council of British Columbia, has been pleased to order and it is hereby ordered,—

That there be created a Health District to be known as the "Wellington Health District," which shall comprise the following territory, namely:—

Commencing at the north-west corner of Wellington District; thence south along the western boundary of the said district, and of a portion of Mountain District, to the line between Sections 16 and 17 in the said Mountain District; thence east along the said boundary line between the said Sections 16 and 17, and along a continuation thereof, to Exit Passage; thence northerly and westerly along the sea coast to the place of commencement.

That a Board of Health be established in the said district, which shall be composed of Joseph B. Hugo, Alexander Sharp, Joseph Lewis, Murdock Mathewson, J. P., and William Tregoning, Esquires, and that the jurisdiction and powers of the said Local Board shall extend to all matters and things defined in the aforesaid "Health Act."

The Empress of China completed an uneventful run across from Japan, yesterday morning, arriving here at 10.30 although the fog was thick in the Straits, and leaving for Vancouver an hour later. Her news report was a very limited one, the most important announcement being that a case of genuine Asiatic cholera had made its appearance in Tokio, during the latter part of August. Up to the sailing of the China the authorities had taken no vigorous measures to prevent the disease gaining a foothold, and so the quarantine officers at this end of the line will exercise even greater precautions in dealing with every steamer arriving from Japan. As foretold in the COLONIST of Tuesday last, all concerned in that celebrated poker game of the Judges have resigned, and many aspirants have made their appearance and are clamoring for the vacant offices. Among the passengers returning to America by the Empress are the Garrett party, who stopped over here *en route* to China, and who, having "seen everything," left for home by last night's Sound steamer. The party includes J. W., H. W. and J. R. Garrett, Mrs. T. H. Garrett, Mrs. W. D. Murray and the Misses Murray. The other saloon passengers were: Miss Buchanan, Mr. A. S. Broadwood, Mr. C. G. Broadwood, Mr. Brantzag, Dr. Conkling, Mrs. Conkling, Miss Conkling, Mr. H. Coulson, Mr. Couch, Rev. Mr. and Mrs. Cady and three children, Mr. W. G. Dawson, Miss King, Miss Hilton, Mr. Lars Hale and two servants, Mr. and Mrs. Lingle, Dr. and Mrs. Lefferts, Prof. G. T. Ladd, Mr. J. B. McCue, Mr. J. Nugent, Mr. J Ono, Mr. C. A. Pennington, Mr. Patterson, Col. and Mrs. Rennick, Mr. and Mrs. B. Rawle, Mr. H. Rust, Mrs. Sites, Master Sites, Miss Sites, Mr. Takasji, Mr. H. Wallis, Miss H. Adams, Mr. Aoki, Mr. Adachi, Mr. Chivoret, Mr. Collins, Mr. F. Graffiender, Mr. and Mrs. Lawrence, Mr. G. Morgan, Mr. McBrier, Mr. Nakayama, Mr. W. Pile, Miss R. Staples, Mr. Ukita.

The celebrated whaleback Charles W. Wetmore, unlucky from the day she left the great lakes, is breaking to pieces on the Columbia river bar, where she struck hard during Thursday. The Wetmore left Tacoma on Monday morning last bound for San Francisco with 2,400 tons of coal and a crew of 22 men. They had light and variable winds and dense fogs. On Wednesday evening she was 20 miles off shore by observation. At 12:30 o'clock, Thursday morning, she struck North Spit, off Coos bay, at the top of high water, and immediately commenced taking water and laboring heavily, and at noon it was evident that she would be a total loss. The life-saving crew with three boats went out and took all hands off and landed them at Empire City. The Wetmore now lies 500 yards to the northward of Coos bay bar. Capt. O'Brien has not yet made a statement as to the cause of the wreck. The captain and Second Mate John C. North were on watch at the time the vessel struck, she being headed south by the standard compass and south half-west by the steering compass. The Wetmore is now lying parallel with the beach, and the breakers which roll over the vessel are slowly pounding her to pieces. There is scarcely a hope that she will ever be floated again.

The steamer Umatilla arrived at the Outer wharf yesterday, almost a full day behind time, from San Francisco, the delay being occasioned by head winds and fogs. She brought nine first-class and eleven steerage passengers for this city, and the usual number for Sound ports. "How did the fight go?" was the unanimous question from those on board before the steamer touched the wharf, and when the land contingent answered "Corbett," their questioners refused to believe it. The Victoria freight consignments made up 118½ tons of the cargo.

The passengers on the bark Glory of the Seas, which arrived at Port Angles Thursday afternoon, seventeen days from Birch Harbor, Alaska, reported observing a ship apparently ashore "on Vancouver Island." The weather was very thick and the fog lifted sufficiently to observe the vessel close in shore. Appearances indicated that she was English.

The N. P. R. steamer Victoria, due here, from Hongkong and Yokohama, on the 19th or 20th inst., has 25 Chinese passengers and a full cargo. The latter includes 2,100,000 pounds of overland freight, 500 tons of merchandise for Victoria and Pacific Coast ports, and 340 bales of silk.

Captain Witt, late master of the ship Lucepore, which sailed from Philadelphia in March last with a cargo of coal oil for Japan, was a passenger by yesterday's Empress. The captain was taken ill and could not return with his ship, which left in ballast on the 8th July last for Tacoma.

The steamer Flyer, which report had it would be put into service between this city and the Sound, is now running between Seattle and Tacoma, which route she will be kept on until the exposition closes in the City of Destiny.

Tug Falcon had a busy day of it, yesterday. She took the Mud Lark dredge out to the Outer wharf, where operations are to be re-commenced, brought the schooner E. B. Marvin into port, and then left for Nanaimo for coal.

The official reports in the case of the sealing schooners recently seized by the Russians, were forwarded last night to Ottawa by Collector Milne. The evidence was very voluminous.

The B. C. Marine Engineers' Association hold their regular monthly meeting tonight, in their rooms in the Five Sisters' block.

The Boscowitz was yesterday at the outer wharf discharging salmon into the hold of the Martha Fisher.

The steamer Joan has been chartered for the Orange excursion to Sidney, on Saturday, the 17th.

Steamer Barbara Boscowitz is advertised to sail for the North on Tuesday evening next.

Steamer Queen coaled at Nanaimo, yesterday, preparatory to sailing for San Francisco.

The Boscowitz acted as tender to the Empress, yesterday.

"SETTLED OUT OF COURT."

The Latest of the Franco-American Bisson-Gillette Farces.

There was recently produced at the Fifth Avenue theater, New York, "La Famille Pont-Biquet," written by Alexandre Bisson. The play, Americanized and "tampered with by William Gillette," as the programmes announce, is styled "Settled Out of Court." "Settled Out of Court" has been widely heralded as a comedy, but it is really a farce of the most unqualified type, for while there is no horse play the exaggerations which it contains and its dependence for humor upon impossibilities certainly take it out of the realm of comedy. This is the correct view of the matter, if Noah Webster's definition of the word "farce" counts for anything.

JOSEPH HOLLAND.

Of the play itself little can be said, except that it is almost totally devoid of action, the fun being evolved entirely by the skillful contortion of language. The principal character could be eliminated without seriously affecting the plot. It is the strongest illustration of how much can be done in a dramatic composition by the mere use of words and the employment of a fine company. The piece does not "move" at all. The story is told; not acted. In short, it is as unlike "Mr. Wilkinson's Widows" as day is unlike night.

The burden of the narrative rests upon Mr. Joseph Holland, who, as Mark Harriman, is said to have the longest part ever written in a modern play. This makes "Settled Out of Court" decidedly lopsided, but Mr. Holland's indiction, manner, facial expression and intonation in the delivery of the "talky" lines are so exquisite that the occasional bright bits are made prominent and serve in a great measure to rescue the farce from absolute dullness. Where Mr. Bisson has desired fun he has dragged it in without rhyme or reason, and I should be very much surprised if "Settled Out of Court" would be tolerated were it interpreted by a less competent cast than that which is now appearing in it at the Fifth Avenue theater.

Beyond a doubt the piece has provided Mr. Holland with the opportunity of making the always looked forward to "hit of his life," and he is reasonably certain to be enabled by his work in "Settled Out of Court" to enter the stellar ranks at no distant day, should he so desire. He is a revelation in a part that would ordinarily be considered tiresome, and New Yorkers, or at least a great many of them, are visiting the Fifth Avenue theater to see Holland.

I should say that Mr. Charles Frohman's experience with "Settled Out of Court" will go far toward dispelling the impression, which seems to prevail in the United States pretty generally, that anything written by French dramatists of the Bisson-Carre school must necessarily be funny. There are a dozen American playwrights any one of whom, in my opinion, can write a much more amusing farce than "Settled Out of Court," and have it finished, too, within six weeks. In justice, however, to all concerned, it should be stated that the piece as presented in New York is said to differ greatly from "La Famille Pont-Biquet," which has enjoyed success in Paris, as much of the "broad" humor was necessarily eliminated from the original version in order to adapt it to the requirements, or rather limitations, of American audiences. OCTAVUS COHEN.

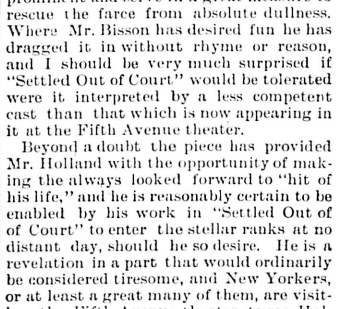

A Bad Season for Actors.

Last season was a terror for theatrical people, and as this is presidential year it promises to be a worse one, for while there may be nothing in the theory, managers are loath to invest too heavily when a presidential contest is on the "tapis," and therefore many of the future Booths and Rachels will be without engagements at least until the beginning of 1893. How much this enforced idleness means to most of these people few can realize.

COAL

The New Vancouver Coal Mining and Land Co., Ltd.

FORMERLY THE VANCOUVER COAL CO.)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL. (Used principally for Gas and Domestic purposes.)

THE SOUTH FIELD COAL. (Steam Fuel.)

THE NEW WELLINGTON COAL.

(House and Steam Coal.) Are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating power, unequalled by any other Bituminous Gas Coals in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean Steamers.

A VISITOR IN PORT.

The Flagship of the French Pacific Squadron Lying in Esquimalt Harbor.

Direct From Honolulu Where the Insurrection Feeling Has Completely Subsided.

Will Remain in Port for Two Weeks or More—Officers Want Some Shooting.

Victoria citizens will be aroused from their peaceful slumbers, this morning, by the retonating echoes of many guns. There may be those who think the Russians are bombarding the city, or that the United States Government has gone to war over the canal tolls question. There is no fear. The cannonading is the signal of peace rather than that of war, and the echoes are from the salvoes of artillery which form the formal salute between the British flagship Warspite and the French flagship Dubourdieu.

The last named vessel came into Esquimalt harbor early last evening, and dropped anchor within easy distance of the Warspite. She is a fully armed cruiser of some 6,000 tons, carrying 400 to 500 men, and just now looks like a full-grown, old-fashioned line-of-battle ship, for a recent coat of black paint, with a broad strip of white along the port holes has given her a rakish appearance. She has three masts, full ship rigged, and sits rather higher out of the water than the Warspite, but she is not so long or so deep.

The officers on board the foreign flagship are as follows:

M. M. Parrayon, Rear Admiral.
M. Besson, Captain.
M. Legrand, Commander.
M. Privard, Paymaster-General.
M. Maurin, Flag Surgeon.
L'Abbe Pannetier, Chaplain.
M. Passerat de Silans, Flag Lieutenant.
Messieurs de Beausaco, Amelot, Mattez, Sellier, Germain, Lidin, Garnault, Cornillat, Lieutenants.
M. Latty, Chief Engineer.
M. Blanc, Surgeon.
M. Mahaud, Paymaster.
M. de Courtois, Julien Laferriere, Chaspoul, Loizeau, d'Arcimolles, Rondeleux, des Prades, Martin de la Martimere, de Verthamon, Sub-Lieutenants.

When a COLONIST reporter went on board the Dubourdieu, last evening, he was received with true French cordiality, and in the spacious ward room in the afterpart of the ship had the pleasure of a long and interesting conversation with several of the officers, who spoke very good English.

From them it was learned that the cruiser has just come up from Honolulu under easy steam and sail, having left the islands a couple of weeks ago. At that time they had not heard the result of the English elections, and of course did not know that Sullivan was no longer champion of the heavy-weight world.. When the Dubourdieu left Honolulu, the threatened insurrection, headed by Wilcox, had come to an end, and the leader was once more occupying his old position as vice-president of the Parliament. This was the only news of interest brought.

The officers, who seem to be a jolly lot of gentlemen, enquired particularly about the sport to be had here. They want shooting, and say they will probably have a chance to get it, as their ship will likely remain in harbor for a fortnight and more. They will get a guide and have some sport. This is the first time for six years that a French man-of-war has been in a British port on the Pacific, and only the third or fourth time for many years. The flagship will, therefore, be an object of interest, and will undoubtedly be visited by a large number of people.

AN ADJOURNED MEETING.

The Council Discuss Motions and By-Laws to Great Length With But Small Results.

Health By-Law Finally Disposed of—A Fiery Discussion Over the Appeal to the Province.

An adjourned meeting of the City Council was held, last night, His Worship the Mayor and a full board being again present.

A report of the Finance committee was received recommending the payment of accounts amounting to $1,776.97.

ALD. BAKER—As a member of the Light committee I can't agree to the item which asks the Council to pay for the repair of the buggy used by the caretaker of the lamps. He is either neglecting his work or is overworked, and it is an outrage to ask the ratepayers to pay such bills.

ALD. MCKILLICAN—The man has a circuit of 95 lamps, spread out over a large area, where, in large cities, 65 lamps are considered the full number which one man can attend to. An assistant has been asked for and refused by the Council. If you want a good service you must pay for it.

ALD. BAKER—The lamps are not attended to, in one instance a lamp was left for seven days without a carbon. A far better light could be furnished if it was properly attended to. The committee are not asked to attend to the matter; the electrician and Ald. McKillican run the whole affair, and I would like my name struck off the committee.

ALD. HUMBER—That is right, we could have a far better light if it was attended to in the proper manner.

ALD. HUNTER—There is no man who can handle these lamps in such a short time—95 lamps in 10 hours is much more than any man's work. Let Ald. Humber attend to reforming the police department and let lighting alone. The engines are doing all they can, and we can't have a sufficient light until we have a better plant.

A hot informal discussion arose and the report was received and the amounts ordered paid; as also a report recommending the payment of $715.10, salaries of men discharged from the employ of the city.

The Finance committee next recommending the payment of Board of Health bills, amounting to $4,679 69. Adopted.

The market committee suggested that the offer of Herbert Cuthbert, regarding the lease of the market, should not be accepted. The advice was accepted.

The superintendent of the market reported the collection of $67 during the month of August, as fees for weighing and measuring.

ALD. MCKILLICAN—This report says nothing about the rents of the market. The revenue of the market should be about $210. Report adopted.

HIS WORSHIP then asked that the Local Improvement by-law be reconsidered, and such changes made as to give full force to the by-law and keep it from conflicting with other municipal legislation. Granted and the changes made.

ALD. LOVELL asked leave to introduce a by-law for the purpose of payment of Board of Health bills. Read a first and second time, and $5,000 fixed as the amount required.

The committee reported the by-law complete. The report was adopted, and the by-law passed.

ALD. LOVELL'S surface drainage by-law was taken up, and the Council went into committee of the whole for its consideration.

ALD. HUMBER—After just passing a local improvement by-law here, they come and ask for $100,000 to run drains through almost entirely private property. The by-law won't pass.

ALD. LOVELL—These surface drains are a necessity which appeals to every visitor to this city, and I hope you will give the matter favorable consideration.

ALD. HUNTER—I think that the ratepayers will vote for this by-law.

The preamble was then discussed. It was suggested that the amount used be for surface drains and general sanitary matters.

ALD. BAKER—If the by-law is put before the ratepayers, with the Johnson street drainage included, I have no doubt but that it will pass.

ALD. LOVELL—Here we can't agree on anything; no wonder the Council is the laughing stock of the town.

ALD. MUNN: If the cholera should break out to-morrow we could not legally pay the bills. The position we are in is very unfortunate. No city should be placed so.

ALD. BAKER: Our present system will not carry off the surface water, and this drainage is necessary.

An attempt was made to rise and report progress, but was lost. The by-law was again taken up and read by clauses. The committee then rose, reported progress and asked leave to sit again. The report of the committee was adopted.

The motions of Ald. Munn and Baker were laid over until the next regular meeting.

ALD. HALL moved that Dr. Watt be appointed acting medical health officer during the absence of Dr. Milne. Carried.

Moved by ALD. HUMBER and seconded by Ald. Baker, "That a committee of three be appointed to confer with the Provincial Government with a view of providing ways and means in case of an invasion of cholera or any other epidemic, and to provide for the payment of smallpox bills.

His Worship then read the following resolution, which, during the day, had appeared upon the city bulletin board: "That in view of the prevalence of smallpox in Asia and cholera in Europe, and the arrival in British Columbia from Asia of persons infected with smallpox and of cholera infected vessels at the Atlantic ports of North America; the Dominion Government be requested to instruct its officials on the Pacific coast to provide for the observance of the quarantine laws, and most careful examination of vessels and cargoes arriving at any port in British Columbia, and also as to the necessity of employing officers to examine all importations of merchandise and persons coming into Vancouver Island, either from foreign or domestic ports, so as to prevent the introduction of smallpox or cholera into the city of Victoria; and further that the Dominion Government be respectfully requested to refund to the Corporation of the city of Victoria all expenses incurred this year which are incidental to quarantine matters and to the inspection of railway trains and passengers, and vessels, passengers and cargoes arriving in the city, and also the expense and loss the city and its citizens have been put to and have suffered in consequence of the introduction of smallpox into the city consequent upon the inadequate quarantining at the Albert Head station of vessels arriving from Asiatic ports."

"The resolution which Ald. Humber has moved," he said, "enables one to deal with this matter in a business-like way. We could not accept money from the Provincial Government for any purpose, but we have a right to ask them to attend to the quarantine matters. The motion has no practical effect."

ALD. HUMBER—If they should offer to pay the bills, could we take the money?

HIS WORSHIP—They could not pay the money, and we could not accept it.

ALD. MUNN—The city should attend to its own sanitary matters before conferring with the Government.

ALD. LOVELL—I move that the resolution proposed by His Worship be substituted for the latter part of Ald. Humber's motion.

ALD. HUNTER—This is a political stratagem. The Provincial Government have the power to come to our relief. By provision of statute the Lieutenant-Governor-in-Council can make such regulations as they wish. I for one will never vote to ask the Dominion Government for anything. I am in favor of Ald. Humber's motion.

ALD. LOVELL—It is far more dignified to go to the Dominion Government than to apply to the Provincial Government, after they have threatened to have the sheriff levy a tax upon the city.

HIS WORSHIP then ruled the motion out of order, in that it would be inoperative.

ALD. HUNTER—I call that ruling in question—the validity of the Health Act has never been questioned, and under Section 3 of the act the Provincial Government can legally pay those bills—and there is no reason why the motion should not pass.

HIS WORSHIP—I would not be doing my duty to put the motion, for we could not accept the money even if the Government was inclined to help us.

ALD. HUNTER—When it is a difference of opinion between yourself and a number of eminent lawyers, the chair might, in all courtesy, put the motion.

The members of the Council walked out until a quorum was wanting, and the Council was adjourned on that account at 12:30 a.m., Ald. Lovell, Humber, Bragg and His Worship the Mayor being the only members left.

Will Re-Open.

The cards are out announcing the re-opening of the Dressmaking Department at the White House on Monday, September 5th. Miss L. McGibbon, who has arrived this week will be in charge.

The fact that this lady held a similar position for ten years with A. Murray & Co., of Hamilton, will be a sufficient guarantee that she is able and will give satisfaction.

Boys' Shirts 40c. each at S. Reids, 122 Government street. Come and look at them.

"Good Advice."

Now is the time for those requiring the use of spectacles or eyeglasses to give us a call, as we are selling our well selected assortment away below wholesale figures. And as we are in earnest about retiring from business at an early date, we have to sacrifice our splendid stock of jewelry etc., etc. No reasonable offer refused. Such an opportunity to make bargains in our line will not happen again. Lange & Co.

TO DEPOSITORS.

The British Columbia Land and Investment Agency, Ld.

SUCCESSORS TO ALLSOP & MASON.)

In view of the low rate of interest given by the Dominion Savings Bank Department, and the restrictions imposed as to the amount to be deposited, this Company is now prepared to receive money on deposit, in large or small amounts, at interest at the rate of 5 per cent. per annum, and on favorable terms as to notice, etc.

The offices of the Company have been removed to 40 Government street, the premises lately occupied by the Telegraph Company.
